Bob:

Attached is the Well Treatment Technologies Report. it was submitted to Rich Takaba and Stuart Yamada on 19 Oct 2010. Cover letter subject: Type 2 Letter Report - Proposal for Groundwater Treatment, Red Hill Bulk Fuel Storage Facility. The others are owned by another Navy entity and we're trying to track down.

Vr,

Aaron

Aaron,

To follow up on my voice mail message here are the documents we are looking to obtain. Please let me know if you can provide these. I would need to by the end of the week if that is possible.

1. Final Report to Evaluate Treatment Technologies for the Red Hill Drinking Water Well, prepared by HDR/Hawaii Pacific

Engineers, April 13, 2010.

2. Final SI Results of Underground Storage Tank Leak Detection Program for FISC Pearl Harbor, 1991/08/18 prepared by

Environmental Science and Engineering.

3. Final Summary Report, Red Hill Fuel Storage Facility, Pearl Harbor, Hawaii, August 31, 2010 prepared by TEC.

Also, we would like to set up a conference call with the people who will be involved in the June 18 public meeting. We propose Wednesday June 10 at 12:00 pm HST. Please let us know if this time will work. Please provide alternative dates/times if that does not work. Thursday June 11 is a State holiday so that day will not work for the DOH folks.

Thanks and please contact me if you need any clarification.

Bob
